

Dear incoming 4th/5th grade families,

This summer we are piloting a new School Supply Bundle Program. Due to school supplies becoming more and more expensive each year, we thought we would help save our families' cost by buying in bulk. When we looked up how much a 4th/5th graders' supplies would cost it was approximately \$125.00. If you buy the School Supply Bundle you would only need to pay \$75.00! This not only saves your family money, but it ensures the teachers are getting the exact supplies they need for your student.

If you choose to use the School Supply Bundle Program you would only be responsible for buying 2 separate items:

- CORDED ear buds
- Mints (girls only)
- Cough drops (boys only)

Payment for this program is due JULY 30th, no exceptions. You can pay during summer school office hours by check, made payable to Saint Vincent de Paul School, or you can pay in cash.

Here are the summer office hours below:

July 27-30 9:00 AM- 1:00 PM

We highly encourage everyone to use this program, so it saves money for not only your family but others. This will also give us more time to get to know your family during supply drop off night because it will alleviate questions about where supplies go, and we can truly focus on building relationships with everyone. If the program is successful for our two grade levels, we are looking into expanding to other grade levels in the future. In order for us to utilize this program, we must require at least 12 families to participate. Money will be refunded in the event of not fulfilling the 12 participant minimum. If you do not choose to use this program, please follow the school supply list that is emailed to you and bring them during supply drop off night.

Thank you for your support,

Kelly Duston and Hannah Newton
